NEWS RELEASE

International Lithium Announces Engagement of Red Cloud Securities

Vancouver, October 4, 2023. International Lithium Corp. (the “**Company**” or “**ILC**”, TSX Venture: ILC, OTCQB:ILHMF, FRA:IAH) announces that, subject to regulatory approval, it has engaged Red Cloud Securities (“Red Cloud”) to provide liquidity services to the Company in compliance with the policies and guidelines of the TSX Venture Exchange (“TSX-V”) and other applicable legislation. Red Cloud is a Toronto-based financial services company that helps mineral exploration and mining companies with accessing capital markets and enhancing their corporate profile. Red Cloud will trade shares of ILC on the TSX-V for the purposes of maintaining a reasonable market and improving the liquidity of ILC's common shares.

Under the agreement, the Company will pay Red Cloud \$5,000 per month during the term, payable quarterly in advance. The term of engagement is ongoing and may be terminated by either party on 30 days' prior written notice. The Company and Red Cloud have an arm's length relationship, but Red Cloud and/or its clients may have an interest, directly or indirectly, in the securities of ILC. The agreement is principally for the purposes of maintaining market stability and liquidity for the Company's common shares and is not a formal market making agreement. There are no performance factors contained in the agreement between Red Cloud and the Company and Red Cloud will not receive any shares or options from the Company as compensation for services it will render.

About Red Cloud Securities

Red Cloud Securities Inc. is registered as an Investment Dealer in Ontario, Quebec, Alberta and British Columbia and is a member of the Canadian Investment Regulatory Organization (“CIRO”). It is focused on providing unique comprehensive capital market services and innovative financing alternatives to the junior resource sector. The company was founded by capital markets professionals who designed the firm to service small public and private companies. This solution is a comprehensive platform that provides a full range of unconflicted corporate access services. Offering these services as a unified platform provides the ultimate value proposition for issuer clients.

About International Lithium Corp.

International Lithium Corp. believes that the world faces a significant turning point in the energy market's dependence on oil and gas and in the governmental and public view of climate change. In addition, we have seen the clear and increasingly urgent wish by the USA and Canada to safeguard their supplies of critical battery metals and to become more self-sufficient. Our Canadian projects are strategic in that respect.

Our key mission in the next decade is to make money for our shareholders from lithium and rare metals while at the same time helping to create a greener, cleaner planet and less polluted cities. This includes optimizing the value of our existing projects in Canada and Ireland as well as

finding, exploring and developing projects that have the potential to become world class lithium and rare metal deposits. We have announced separately that we regard Zimbabwe as an important strategic target market for ILC, and we hope to be able to make announcements over the next few weeks and months.

A key goal has been to become a well-funded company to turn our aspirations into reality, and following the disposal of the Mariana project in Argentina in 2021 and the Mavis Lake project in Canada in January 2022, the Board of the Company considers that ILC is now well placed in that respect with a strong net cash position.

The Company's interests in various projects now consists of the following, and in addition the Company continues to seek other opportunities:

Name	Location	Area (Hectares)	Current Ownership Percentage	Future Ownership percentage if options exercised or work carried out	Operator or JV Partner
Raleigh Lake	Ontario	48,500	100%	100%	ILC
Wolf Ridge	Ontario	5,700	0%	100%	ILC
Avalonia	Ireland	29,200	45%	21%	Ganfeng Lithium
Mavis Lake	Ontario	2,600	0%	0% (carries an extra earn-in payment of CAD \$0.7M if resource targets met)	Critical Resources Ltd (ASX:CRR)
Forgan Lake & Lucky Lake	Ontario	< 500	0%	1.5% Net Smelter Royalty	Ultra Lithium Inc. (TSX.V:ULT)

The Company's primary strategic focus at this point is on the Raleigh Lake Project's lithium and rubidium project in Canada and on identifying additional properties in Canada and Zimbabwe.

The Raleigh Lake Project consists of 48,500 hectares (485 square kilometres) of mineral claims in Ontario and is ILC's most significant project in Canada. Drilling has so far been on less than 1,000 hectares of our claims. The exploration results there so far, which are on only about 8% of ILC's current claims, have shown significant quantities of rubidium and caesium in the pegmatite as well as lithium. Raleigh Lake is 100% owned by ILC, is not subject to any encumbrances, and is royalty free.

With the increasing demand for high tech rechargeable batteries used in electric vehicles and electrical storage as well as portable electronics, lithium has been designated "the new oil", and is a key part of a green energy sustainable economy. By positioning itself with projects with significant resource potential and with solid strategic partners, ILC aims to be one of the lithium and rare metals resource developers of choice for investors and to continue to build value for its shareholders in the '20s, the decade of battery metals.

On behalf of the Company,

**John Wisbey
Chairman and CEO**

Cautionary Statement Regarding Forward-Looking Information

Except for statements of historical fact, this news release or other releases contain certain “forward-looking information” within the meaning of applicable securities law. Forward-looking information or forward-looking statements in this or other news releases may include: the effect of results of anticipated production rates, the timing and/or anticipated results of drilling on the Raleigh Lake or Wolf Ridge or Avalonia projects, the expectation of resource estimates, preliminary economic assessments, feasibility studies, lithium or rubidium or caesium recoveries, modeling of capital and operating costs, results of studies utilizing various technologies at the company’s projects, budgeted expenditures and planned exploration work on the Company’s projects, increased value of shareholder investments, and assumptions about ethical behaviour by our joint venture partners or third party operators of projects. Such forward-looking information is based on assumptions and subject to a variety of risks and uncertainties, including but not limited to those discussed in the sections entitled “Risks” and “Forward-Looking Statements” in the interim and annual Management’s Discussion and Analysis which are available at www.sedar.com. While management believes that the assumptions made are reasonable, there can be no assurance that forward-looking statements will prove to be accurate. Should one or more of the risks, uncertainties or other factors materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking information. Forward-looking information herein, and all subsequent written and oral forward-looking information are based on expectations, estimates and opinions of management on the dates they are made that, while considered reasonable by the Company as of the time of such statements, are subject to significant business, economic, legislative, and competitive uncertainties and contingencies. These estimates and assumptions may prove to be incorrect and are expressly qualified in their entirety by this cautionary statement. Except as required by law, the Company assumes no obligation to update forward-looking information should circumstances or management’s estimates or opinions change.
